#### PROFESSIONAL SUMMARY

**Currently** an Associate Software Engineer with 8 months of hands-on experience in Java backend development at Cye Technology Pvt Ltd, specializing in building robust, scalable enterprise applications. Eager to leverage strong skills in **Spring Boot, AWS, MySQL, and RESTful APIs** to contribute to impactful software solutions and and grow within a dynamic team.

#### **WORK EXPERIENCE**

### **Associate Software Engineer**

11/2024 – present | Hyderabad, India

Roles and Responsibilities:

- Currently developing **backend microservices** for an enterprise portal with a **React frontend** for a key client, significantly boosting their operational efficiency.
- Designed and implemented **RESTful APIs** using **Spring Boot** for core modules like **Profile, News, Notifications, Payroll, and Exam Management** (admin assignment, processing, certificates), powered by **MySQL**.
- Implemented granular Role-Based Access Control (RBAC) via Spring Security and engineered File Upload/Management services integrating AWS S3.
- Managed codebase with Git and GitHub, contributing to CI/CD pipeline (Maven), and deploying services on AWS EC2 (Docker, VPC, ECS, RDS, IAM, CloudWatch).
- Ensured high service reliability through **Postman** API testing, **JUnit** unit testing, and active participation in the **SDLC** (agile methodologies, code reviews).

## **TECHNICAL SKILLS**

- Programming Languages: Java, Python (Basics)
- Backend Frameworks: Spring Boot, Hibernate, JPA, Spring Security
- Web Technologies & APIs: HTML, CSS, RESTful APIs, Microservices
- Databases: MySQL, Amazon RDS, SQL
- Cloud & DevOps: AWS (EC2, S3, VPC, ECS, RDS, IAM, CloudWatch), Docker, Maven, CI/CD
- Tools & Core Concepts: Git, GitHub, Postman, VS Code, Eclipse, JUnit, Mockito, Linux (Ubuntu), Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC)

## **PROJECTS**

#### **Enterprise Operations Portal**

(Java Backend)

- A comprehensive **Microservices-based** enterprise portal with a **React frontend**, designed to streamline critical HR and operational processes for a key client, leveraging **Spring Boot** for backend services.
- Significantly enhanced client efficiency by providing robust **RESTful APIs** for employee profile management, news, notifications, payroll, exams, and secure file handling, backed by **MySQL** and **Hibernate/JPA**.
- Built to be scalable and reliable, facilitating seamless operations for a large employee base, with services containerized using **Docker** and deployed on **AWS EC2**.

## **CERTIFICATES**

• Best Employee Award - CYE Technology Pvt Ltd for outstanding performance in project execution and contribution.

## **EDUCATION**

## **B.Tech (Computer science and Engineering)**

2020 – 2024 | Markapur, AP

Dr. Samuel George Institue Of Engineering And Technology

#### PERSONAL SKILLS

- Excellent communication, analytical thinking, and problem-solving abilities.
- Highly collaborative with a strong team-oriented approach.
